

STEPHEN PARKER SINGLETON

sps253@cornell.edu • <https://singlesp.github.io>

Education

June 2020 - April 2023	Computational Biology, Ph.D.	Cornell University
August 2015 - June 2017	Chemistry, M.S.	Cornell University
August 2011-May 2015	Chemistry, B.S.	University of South Carolina

Professional Experience

April 2023 - Present	Postdoctoral Researcher Advisor: Amy Kuceyeski	Department of Radiology Weill Cornell Medicine
----------------------	---	---

- Studying the effects of pharmacology, substance use, and trauma on human brain activity/connectivity in the Computational Connectomics Lab.
- Mentor undergraduate and graduate students on their rotation/thesis projects.

June 2020 - April 2023	NSF Graduate Research Fellow Advisor: Amy Kuceyeski	Department of Computational Biology Cornell University
------------------------	--	---

- Studying the effects of pharmacology on human brain activity/connectivity in the Computational Connectomics Lab.
- Utilizing advanced techniques in network control theory, statistics, and machine learning to quantify brain dynamics.
- Identifying neural correlates of MDMA-assisted therapy for PTSD in humans using audio script-driven memory recollection during fMRI.
- Coding experience: MATLAB, R, python, bash, git. Experience with preprocessing and analysis of fMRI, dMRI, PET.
- Network (graph) neuroscience, feature extraction, biomarker discovery.

August 2017 - June 2020	Teacher High School	Palmetto Scholars Academy North Charleston, SC
-------------------------	------------------------	---

- Designed and implemented a diverse 10th grade chemistry curriculum for intellectually gifted students.
- Instructor of dual-enrollment Chemistry 110/111 lecture and lab course along with an Introduction to Research class to prepare junior students for their senior capstone project.
- Utilized a project-based-learning curriculum for an experimental chemistry elective course.

June 2015 - August 2017	Graduate Research Assistant Advisor: Brett P. Fors	Department of Chemistry & Chemical Biology Cornell University
-------------------------	---	--

- Developed novel catalyst systems for controlling polymer topology *in situ*, utilizing visible light as an external stimulus.
- Structure-property relationships of these new materials studied via NMR, rheology, and SAXS.
- Random forest classifier implemented to map structure-property relationships.

August 2013 - May 2015	Undergraduate Researcher Advisor: Chuanbing Tang	Department of Chemistry & Biochemistry University of South Carolina
------------------------	---	--

- Development and classification of cationic, rosin acid-derived, compounds and polymers as novel antimicrobial agents.
- Surface initiated ATRP modification of glass surfaces for medical device and implant applications.
- Novel monomer synthesis and natural product functionalization, purification, and characterization.

May 2013 - August 2014	Applications/Development Chemist Intern I & II	MeadWestvaco (now Ingevity) North Charleston, SC
------------------------	---	---

- Ladder study performed involving HM-PSA formulation and preparation, physical and rheological testing, followed by multivariate analysis (PCA, PLSA) to create an iterative screening process for new product development and adhesive formulation.
- Explored various synthetic pathways for the development of new products with targeted end-use properties in adhesive systems.

Teaching and Outreach

April 2023 - Present	Machine Learning in Medicine Virtual Seminar Series	Cornell University Ithaca, NY
----------------------	--	----------------------------------

- An inter-campus collaborative with the goal of bringing together researchers with common interests in machine learning applied to clinical questions/data
- Invite and host speakers from academia and industry for our regular virtual seminar series.

April 2019 - May 2022	Advisor High School Senior Capstone Experience	Palmetto Scholars Academy North Charleston, SC
<ul style="list-style-type: none"> ▪ Mentoring high school students interested in scientific research to develop, plan, and perform their thesis research for their Senior Capstone Project. ▪ Students carry out hands-on research, write a thesis, and defend it against a committee. 		
August 2017 - May 2018	Head Coach VEX High School Robotics	Palmetto Scholars Academy North Charleston, SC
<ul style="list-style-type: none"> ▪ Coached 4 high school VEX teams during the 2017-2018 In The Zone challenge. ▪ Teams earned 2 Excellence Awards, 2 Design Awards, and 1 Tournament Champions award. ▪ 2 Teams made it to SC State Tournament and 1 team advanced to the US CREATE Open event in Council Bluffs, Iowa. 		
January 2016 - June 2017	Outreach Coordinator	Fors Research Group Cornell University
August 2015 - June 2017	Families Learning Science Together Workshop Volunteer	Cornell Center for Materials Research Cornell University
August 2015 - May 2016	Graduate Teaching Assistant Organic Chemistry Laboratory	Department of Chemistry & Chemical Biology Cornell University
October - November 2015	Family Science Nights Module Instructor	Sciencenter Museum Ithaca, NY
January 2013 - May 2013	Teaching Assistant General Chemistry Laboratory	Department of Chemistry & Biochemistry University of South Carolina

Volunteer Experience

April 2021 - Present	Night Attendant	Zen Therapeutic Solutions Charleston, SC
<ul style="list-style-type: none"> ▪ Phase 1, 2, and 3: MDMA-assisted psychotherapy research with MAPS/MPBC. ▪ Overnight shadow for study participants following their 8 hr long therapeutic sessions with MDMA. 		
August 2017 - Present	President Homeowner's Association	Jericho on the Ashley North Charleston, SC
October 2016	Service Volunteer	Montgomery Park Playground Build Dryden, NY
September 2013 - June 2015	President and Founder	Gates at Williams-Brice Recycling Committee Columbia, SC
Summers of 2013-2014	Service Volunteer	The Hope Lodge, American Cancer Society Charleston, SC

Honors and Awards

Fulbright Research Grant Alternate — 2022 (*Neural and subjective effects of mescaline in naturalistic settings*)
National Science Foundation Graduate Research Fellow — 2016 - 2017; 2020 - 2022
Graduation with Leadership Distinction in Research — May, 2015
University of South Carolina Outstanding Senior Award — April, 2015
Who's Who Among American Colleges and Universities Award — April, 2015
Hypercube Scholar Award — April, 2015
Hiram S. and Lawanda Allen Scholarship for Excellence in Chemistry — April, 2014
Magellan Scholarship for Undergraduate Research — April, 2014
Outstanding Poster Presentation, Presented at the South Carolina ACS Awards Day — April, 2014
South Carolina Palmetto Fellows Scholar — August, 2011 - May, 2015
USC Dean's Scholar — August, 2011 - May, 2015

Publications

S. Parker Singleton, Puneet Velidi, Louisa Schilling, Andrea I. Luppi, Keith Jamison, Linden Parkes, Amy Kuceyeski “*Altered structural connectivity and functional brain dynamics in individuals with heavy alcohol use*,” **bioRxiv** 2023.11.27.568762; doi: <https://doi.org/10.1101/2023.11.27.568762>. **Under Revision at Biological Psychiatry: Cognitive Neuroscience and Neuroimaging.**

Nate Roy, **S. Parker Singleton**, Keith Jamison, Pratik Mukherjee, Sudhin Shah, Amy Kuceyeski “*Altered control energy and entropy of brain dynamics in individuals with mild traumatic brain injury*,” **Under Review at Human Brain Mapping**.

Presentations

Invited talks, panels, workshops:

- “*Pharmacologically-informed network control theory*,” The Nora Volkow group at the National Institute on Alcohol Abuse and Alcoholism online, 2023.
- “*Unlocking DMT Horizons: Exploring the clinical potential of DMT*,” OPEN Foundation, online, 2023.
- “*Harnessing neural and cognitive plasticity with psychedelics*,” Cleveland Clinic Psychedelic Science Group, online, 2022.
- “*Modeling brain dynamics using psychedelics*,” Maastricht University, Maastricht, Netherlands, 2022.
- “*The flowing brain on psychedelics*”, Oxford Psychedelic Society, online, 2021. **Recording:** <https://youtu.be/wwovwxFuWUE>
- “*Chemistry and Music Workshop*,” American Chemical Society National Meeting, Orlando, FL, 2019.

Oral presentations:

- “*This is your brain on drugs: A multimodal neuroimaging and computational investigation into the effects of psychedelics and MDMA on human brain dynamics*,” Dissertation Defense Seminar, Department of Computational Biology, Cornell University, 2023. **Recording:** <https://youtu.be/yE6NuOi3BAI>
- “*Altered neural activity patterns following MDMA-assisted therapy for PTSD: an fMRI pilot study*,” Interdisciplinary Conference on Psychedelic Research, Haarlem, Netherlands, 2022. **Recording:** <https://youtu.be/iV0CcJzOk6E>
- “*A flattened energy landscape under LSD and psilocybin: how psychedelics advance our ability to model brain dynamics*,” Psychedemia: Neuroscience Panel, Columbus, OH, 2022. **Recording:** <https://youtu.be/khaVhAL9NFQ>
- “*Evidence for a flattened energy landscape under LSD and Psilocybin*,” Canadian Computational Neuroscience Spotlight, online, 2022.
- “*Neurobiology of MDMA-assisted therapy for PTSD*,” Cornell Computational Biology Student Seminar Series, Ithaca, NY, 2022.
- “*LSD flattens the brain’s energy landscape: insights from receptor-informed network control theory*,” Cornell Computational Biology Student Seminar Series, Ithaca, NY, 2021.
- “*Antibacterial and Biofilm-Disrupting Coating Sustainable Materials*,” University of South Carolina Discovery Day for Undergraduate Researchers, Columbia, SC, 2015.
- “*Antibacterial and Biofilm-Disrupting Coating Sustainable Materials*,” Southeastern Undergraduate Research Conference, Montgomery, AL, 2015.

Poster presentations:

- “*Altered brain activity and functional connectivity after MDMA-assisted therapy for post-traumatic stress disorder*,” Psychedelic Science 2023, Denver, CO, 2023.
 - “*LSD and psilocybin flatten the brain’s energy landscape: insights from receptor-informed network control theory*,” Organization for Human Brain Mapping, Glasgow, U.K., 2022.
 - “*Evidence for altered neural activity patterns after MDMA-assisted therapy in adults with chronic and severe post-traumatic stress disorder: a pilot study*,” Organization for Human Brain Mapping, Glasgow, U.K., 2022.
 - “*LSD and psilocybin flatten the brain’s energy landscape: insights from receptor-informed network control theory*,” From Research to Reality: Global Summit on Psychedelic Therapies and Medicine, Toronto, CA, 2022.
 - “*Evidence for altered neural activity patterns after MDMA-assisted therapy in adults with chronic and severe post-traumatic stress disorder: a pilot study*,” From Research to Reality: Global Summit on Psychedelic Therapies and Medicine, Toronto, CA, 2022.
 - “*LSD flattens the brain’s energy landscape: insights from receptor-informed network control theory*,” Organization for Human Brain Mapping, online, 2021.
 - “*Sustainable Antimicrobial Coatings from Resin Acids*,” American Chemical Society Awards Day, Orangeburg, SC, 2014.
-
